

SWFcontract GRABER® VERTICAL BLINDS

Graber vertical blinds provide superior strength and exceptional performance with a wide choice of headrail and louver options. Features such as EZ-Open™ and One Touch® wand control allow customization for any project. The louver color palette reflects the trends of today's market place.

- Ultra-Vue™ headrail with self aligning carriers
- G-71 Super-Vue® headrail with pantograph spacing
- G-85 Dura-Vue® economical steel headrail
- Durable vinyl louvers offer superior light control and are easy to clean
- Solar fabric louvers with 5% openness minimize glare and block UV rays
- FR fabric louvers are available free hanging or inserted into a channel panel

Commitment and innovation...

For over 100 years SWF has been synonymous with quality and innovation due to our commitment to excellence. This fundamental principle drives the company's research and development teams to develop distinctive products that are both functional and fashionable.

Environmental consciousness...

SWF is committed to the practice of recycling materials and sustainable forest management providing for a manufacturing process that puts the preservation of our natural resources first. SWF continues to invest in new technology that minimizes the environmental impact of our operations.

Best Experience...

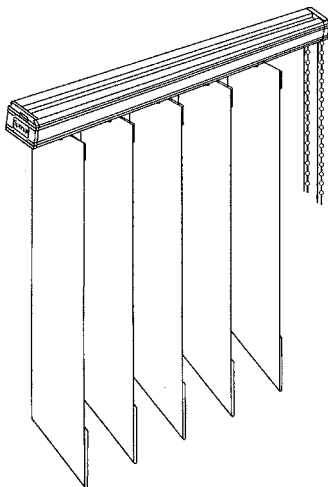

The heart and soul of the SWF difference is its commitment toward creating the "Best Experience" possible. From consultation through installation, every window treatment produced is followed through by excellent customer service. It's all about satisfaction and that is what truly sets us apart.

WINDOW COVERINGS
