R24 clutch system is available with 2" or 2.5" tube.

Roller tube is extruded T5 aluminum, engineered with a channel to accept fabric spline, making the shade panel easy to remove.

Clutch mechanism is glass-reinforced polyester thermopolymer (PBT) for wear resistance, smooth operation, and corrosion resistance.

Optional spring assist reduces pull force, allowing easy lifting of larger shades.

Brackets are stamped steel and corrosion resistant. Available in powder coated white and black.

Shades are raised and lowered by means of a #10 stainless steel bead chain.

Plastic bead chains are also available—colors include white, vanilla, gray, brown, and black.

Hem bar is extruded aluminum and completely enclosed in a heat-sealed hem pocket.

Optional external fabric wrapped hem bar is available in a maximum width of 12 feet. Colors include white, clear satin anodized, and bronze.

Limited Lifetime Warranty
